

REPLACEMENT TRANSPORT SWITCH / READY LIGHT

p/n 94277

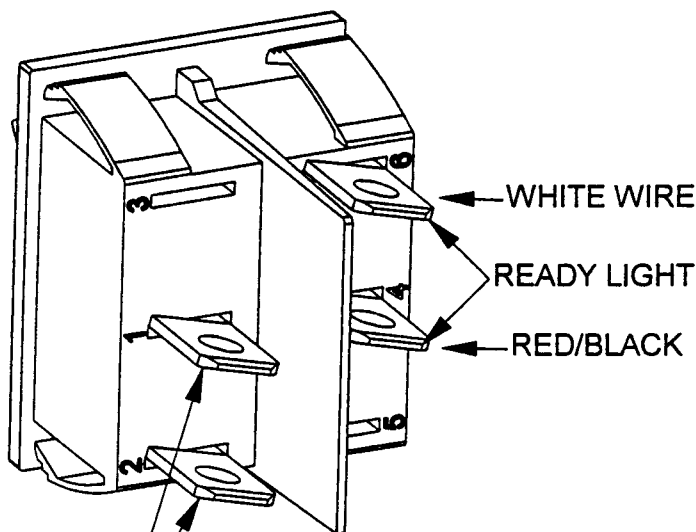

The new switch supplied in this replacement kit may have a slightly different TERMINAL CONFIGURATION than the part being replaced. The quality & reliability of the part has been improved, and as result, ONE of the READY LIGHT terminals has been moved from POSITION #4 to POSITION #5. Refer to the TERMINAL CONFIGURATION VIEWS and determine the part you are replacing. The WHITE wire still connects to TERMINAL #6, the RED W/BLACK stripe will now connects to TERMINAL #5 (Formally TERMINAL #4, or the MIDDLE TERMINAL).

ROCKER SWITCH TERMINAL CONFIGURATION VIEWS
